## URGENT

**This is an urgent message directed towards anyone who attended the Freedom Christian Center Revival from Sunday morning July 5<sup>th</sup> through Tuesday evening July 7<sup>th</sup>.** If you attended the revival during any or all of these dates, we highly encourage you to PLEASE quarantine at home for 14 days from the last day you attended the revival and monitor for symptoms of COVID-19. These symptoms include:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

A person who attended the revival has tested positive for COVID-19 and was infectious at the revival. We know there are additional attendees of the revival who are also exhibiting COVID-19 symptoms. This person ALSO worked at Legacy Meats Co. on Tuesday, July 7th while infectious. The individual was not masked at any time during the revival or work. If you purchased meat at Legacy Meats Co., there is no need to dispose of the meat, however you are asked to monitor for symptoms for 14 days. It is not necessary to quarantine (unless you attended the revival also).

Quarantine means not leaving your home for 14 days from your last exposure. You are asked not to work, or go out in public (including attending church services) UNTIL the 14 days are over because at any time during those 14 days you can develop symptoms and infect others. It's ideal for you to ask others to shop for you, or use contactless grocery pick up. If you live with others, everyone needs to monitor for symptoms. If you absolutely have to leave the house it is extremely important to wear a mask. If you start to exhibit any of the symptoms listed above, please call your doctor for testing or referral for testing. If you do not have a doctor, please use the CoxHealth virtual visit <https://www.coxhealth.com/services/virtualvisits/> and be sure to use the code: COVID.

Due to the close contact between attendees, this has the potential to cause a large outbreak in our county that can put many others at risk if quarantine recommendations are not followed. The fact that we are issuing such an urgent release asking for mass cooperation from a large group of people points to the seriousness of this evolving situation. We will be advising Freedom Christian Center not to hold any church services or any other event until we can determine that it is safe for the public to return. We are still in the process of the investigation and will post more information as it is received.
