

LAWRENCE COUNTY HEALTH DEPARTMENT

Food Service Inspections

1/3/2022 – 1/27/2022

The health department divides food service code violations into two categories; critical and non-critical.

Critical violations are more likely than other violations to contribute to food contamination, illness and/or injury.

Non-critical violations, although important to the overall good hygiene of the establishment, do not necessarily present an immediate threat to food contamination, illness and/or injury.

A report for each establishment that is inspected shows the number of critical violations, along with a short statement as to the nature of the violations. The report also shows the number of non-critical violations but doesn't list the nature of those violations. More information may be obtained by looking on our web site www.lawrencecohealth.com.

* = Items corrected on the spot.

** = Sent to the Prosecuting Attorney

= Establishments that have obtained a **star rating**. These establishments received zero (0) critical violations during their pre-opening, change of ownership, routine, or complaint inspection.

Trinity Lutheran School	Monett High School	Ma's Café
